## BALTIMORE

Yeshivas Toras Simcha students enjoyed a hands-on interaction with the very unusual guests on Friday, *Parashas Noach*. Do you know the difference between a tortoise and a turtle? Toras Simcha students know that a tortoise is a land animal and a turtle is a water animal. The boys also enjoyed holding snakes, lizards and a gecko. Because the boys behaved so nicely, Mr. Mike even showed them his special guest, a guinea pig, who found a comfortable resting place on the lap of the boys' *Morah*. Photos by Dovid Kapenstein.
